THE MEXICO CONVENTION—INDUSTRIAL AND COMMERCIAL INVESTORS OF THE South are not yet satisfied, but nothing

is to be done with the Southern Unionists.

There is at least one element of practicality in the objects avowed which must command the attention of the convention; we

mean direct trade, not as days past, when it was meaningless, but direct moderated.

This direct trade exists in a plainer way,

and if the movement will, it will be the most important element of wealth to self.

The feature in this movement which attracts most attention is the proportion to whom

a continental depot for raw cotton, and also to spin our cotton into yarn for foreign markets.

The idea of a continental depot to resist the

monopoly is colossal and truly American in all its bearings.

The releasing our greatest American

estate from the selfish monopoly of England and France, and the opening up of the question is not merely Southern (although directly interesting to planters), but is of peculiar interest to the manufacturing progress of the great West and that empire west of the Ohio and Mississippi.

A continental depot of cotton, and pre-

sumptuous to Southern Disunionists, but not to

us look to this body with a strong feeling of confidence.

The first exhibition of the society was held Saturday last at the Library Rooms, on Fourth street. This, the first exhibition, was very encouraging to the friends of horticulture. Some superb bouquets were exhibited, and a great variety of large and excellent strawberries.

Rouges were exhibited by Miss Shall Short, Ormby Hite, Dr. Willis Green, Philip Miss, Mrs. A. Ford, Mrs. E. Ormby, D. G. Hall, George H. C. Heinsohn, E. Hobbs, Edw. W. Ford.

Specimens of cauliflower were exhibited by Mrs. Issac Everett, the largest of which, however, was not equal to the specimens shown at the meeting of the Neck Franchise brought forward by Messrs. John Thacher, Arthur Peter, B. H. Lawrence, and A. G. Munro; of a mixed kind; Thos. S. Kennedy, of the American Scarlet and Muscatelle by Dr. E. Heinsohn; of the Victoria by Mrs. E. Ormby and A. D. Robertson; of three mixed kinds by Arthur Peter; of Longworth's Peony by E. Wilson; of Brewster's Crocus by George E. Cooke; of the Victoria by Mrs. E. Ormby and A. G. Munro; of the Hudsons by Mrs. E. Ormby and A. G. Munro; of the Carolina Pine by Dr. Willis Green; of Euri's New Pine by O. Hite and A. Peter; of McAvoy's Superior by William Mox of the Black Prince by S. R. Clemons and A. G. Munro. Specimens of Mr. Cheetham's Victoria strawberries measured 3 inches in circumference. Specimens of Mr. Cheetham's Black Pineapple 3 inches. Mrs. New's Pine and McAvoy's Superior were unusually delicate and fine. The flowers were all of a uniform size, and their fragrance was most delicious.

Mr. John P. Morton exhibited some fine cherries, and Mrs. E. Ormby some excellent service berries. It is not often that one sees such strawberries as we witnessed at the exhibition.

Proceedings of the Old School Presbyterian Assembly.—The assembly selected Danville, Ky. as the site for the location of the Western Theological Seminary, after a long debate. Other important business was transacted, when the convention adjourned.

NEW ORLEANS.—May 26.

The Eclipse is going to sight literally crowded with passengers.

HORSE THIEF ARRESTED.—On Saturday morning a fellow named George Eades had a horse offered for sale at auction. Mr. Wyman or Wyans, who was present, claimed the horse as his own, that he had stolen from him, and Eades said that he got this horse for another few miles from the city, and showed a handful of money which he got in addition. Mr. Wyman, however, claimed the horse was his, and Eades was sent with him to his house. He then rode the road leading to Oaklawn, and as soon as he reached the woods took to his heels. The officers recaptured him and brought him back, and they acknowledged having stolen two horses and a new saddle and bridle. The saddle had been sold for \$8.

COT. BUCKNER, the efficient jailor of the county, showed us a pair of iron shackles with which two prisoners, confined in jail for stealing, were secured by attaching them to one leg of each. They managed to obtain a common knife which had been worked into a file, and it had sliced the iron through, which was nearly an inch in thickness, and released themselves from the shackles. Their plan was doubtless to knock the guard down and escape.

EGERTON ROSE AND SAM MCURDY are arrested yesterday for knocking a man down in the upper part of the city and robbing him of two dollars and a half.
